Troops Go With Gattling Gun to Stop

TROUBLE BETWEEN THE RACES

Which Was Brought On by a Conductor Ecting Two Boisterous Negroes from a Passenger Train—One Negro Killed by Conductor.

Meridian, Miss., Dec. 26.—According to reports received here Monday the negroes for miles around have congregated in the town of Wahalak, 14 miles north of this city, and all during Monday afternoon paraded the streets, threatening vengeance on the whites because of the killing of one negro and the wounding of another by a conductor on a passenger train of the Mobile and Ohio railroad while the latter was attempting to quell a disturbance aboard his train.

At the town of Wahalak scarcely more than 25 white persons reside, and in response to a plea for protection, Battery I and company D of the state militia, stationed in this city, has been ordered to proceed to the scene with all possible dispatch.

The troops left aboard a special train at 10 o'clock and reached Walahak at midnight.

The battery by instructions carried a gatling gun, and all the men are heavily armed, with plenty of ammunition.

At 8:30 o'clock Monday night a message from Scooba, the first station south of the scene of the trouble, stated that a clash had occurred between the races with the result that two white men were killed. This report, however, has not been verified, although railroad officials admit receiving a message detailing some additional trouble.

The trouble originated while the train was between Wahalak and Scooba in a fight between two negroes. Conductor Cooper, who was in charge of the train, attempted to separate the combatants, when he was attacked by a negro known as Spencer. After receiving several knife wounds, Cooper fired on his assailant, seriously wounding him, and killing an unknown person.

When Wanalak was reached Spencer, though badly wounded, left the train, and when Constable O'Brien of that place attempted to effect his capture, the negro shot and killed the officer. Spencer then escaped to the woods, with a well organized posse in pursuit.

At last reports the negro had succeeded in evading his pursuers.

Wild Man Terrorizes Citizens.

Lebanon, Ohio, Dec. 26—A wild man is terrorizing the community surrounding Socialville, 10 miles southwest of here. A new bicycle and a penknife, together with a long manuscript, evidently written by a demented person, were found hidden in Western Row schoolhouse. The wild man has been seen lurking about this building at night. Weird howls have been heard from that direction for several weeks and a search in the woods has disclosed every appearance of being recently occupied. A sharp lookout will be kept until the person is apprehended.

Died from Starvation.

Toledo, O., Dec. 26.—David Weinburg, Deputy Grand Commander of the Ohio Modern Maccabees, died following an operation performed on him Tuesday, when his tongue was entirely removed. Previous to the operation, which was made necessary by cancer in the mouth, he had partaken so little food that he practically starved himself.

Engineer Hurt in Collision..

Moultrie, Ga., Dec. 26.—A head-on collision between local freight No. 46, of the Atlanta, Birmingham and Atlantic, and a special train of an engine and one car, belonging to the Union Pinopolis saw mills, occurred near Moultrie. Engineer James, of the local freight, fell against the embankment and broke two ribs.

MARIETTA HAS SERIOUS FIRE.

Whole Business Portion of City Was Threatened.

Marietta, Ga., Dec. 26—The Georgia Manufacturing and Public Service company's plant was almost entirely destroyed by fire Monday, the old portion of the plant being the worse wrecked, and the new portion being badly damaged.

Moultrie M. Sessions is president of the company. It was formerly the Marietta Paper Mills, but recently incorporated as the Georgia Manufacturing and Public Service Corporation. This company operated the electric power plant, the city's lighting service and the city waterworks in addition to the paper mills.

The lighting plant was in the new portion of the building, and this was not so severely injured by the flames as the other and it is expected that the damage to wires and machinery will be repaired some time in the next 24 hours.

The fire is supposed to have originated in the chemical room of the paper mill and to have been due to the explosion of chemicals used in the bleaching process. The flames for awhile threatened the whole business section of Marietta and the fire department of Atlanta was called upon for assistance, but shortly afterwards the Marietta department succeeded in geting the fire under control and Atlanta was wried not to send the aid formerly requested. The Marietta Chair Factory and the Marietta Ice company's plants were dangerously close to the burned district and for a while was in imminent danger.

During the progress of the flames the firemen were seriously handicapped by the inadequate water supply.

Powell Killed by Officer.

Cedartown, Ga., Dec. 26.—Policeman Lawrence Hunt shot and killed Tom Powell, a carpenter, who resided in the eastern part of the city, in an attempt to arrest him. It is stated that Powell was drinking. He had been giving considerable trouble during the day and at one time had shot at his son-in-law. A call for the police was sent in and Officer Hunt and Wright answered the call. Powell barricaded himself in the house upon learning of the approach of the police, where he remained until he thought the officers had departed. Upon opening the door and seeing the officers, he advanced upon them with his shotgun and fired, but Patrolman Hunt was too quick for him and fired about the same time, his shots taking effect and killing Powell. Powell's shot went astray.

Elected Constitutional President.

Guayaquil, Ecuador, Dec. 26.—The national assembly Monday formally elected General Eloy Elfaro, the acting president, to be constitutional president for four years. The election of Alfaro, who received a large majority of the votes cast is very popular. The republic now seems to be entirely pacified and the commercial outlook is most favorable to the abolition of the import duty on sugar and the opening of this market to the sugar refineries of the United States of America.

Two Killed by a Train.

Atlanta, Dec. 26.—E. G. Grubbs, a young white man 23 years of age, living with his wife and 4-months-old child at the home of his father, A. J. Grubbs, on Whiteford avenue, in Edgewood, a driver and collector for the Guthman steam laundry, was killed Monday by an outbound Southern railway switch engine at the North avenue crossing. A 12-year-old negro boy called "Pate," who was also on the wagon, was killed at the same time.

Dublin, Dec. 26.—James Bryce, who is to succeed Sir Mortimer Durand as British ambassador at Washington has returned to the chief secretary's office in the castle and is busy winding up public affairs there, preparatory to handing over the post to his successor. It is understood Mr. Bryce will leave for Washington about the middle of February. There is a disposition in Dublin to regard Augustin Darolli, president of the board of education, as the most probable successor of Mr. Bryce in Ireland.

JAPAN TO INVADE CHINESE MARKETS

Little Brown Men, it Is Stated, May Cut Into

THE AMERICAN ENTERPRISE

Japanese Merchants Are Reaching Out To Capture the Cotton Markets of China and Relieve Americans of this Business to as Large a Degree as Possible.

Washington, Dec. 26.—Japanese merchants with the aid of the government are reaching out to capture the cotton markets of China and relieve Americans of this business to as large a degree as possible.

Consul John E. Jones, of Dalny, has reported to the state department how persistent are the efforts in this direction. In the past six months, says Mr. Jones, the mills in Japan have increased their spindles with the object of capturing the Chinese markets. There is evidence the Japanese government not only looks with favor on the enterprise, but is lending aid.

Japan, according to Mr. Jones, has many things in her favor in her efforts to capture the Chinese cotton market, including cheap concentrated labor, understanding of the wants of the Chinese and geographical position.

China is producing large quantities of cotton, but the quality is not good and has to be mixed with either the American or Indian cotton to produce a good fabric.

Japan uses large quantities of Chinese cotton in the making of textiles and will seek control of the supply. Mr. Jones says Japan is even now growing cotton in Korea in order to make herself independent of the foreign supply.

Of 209,574,662 pounds of raw cotton used by the Japanese cotton mills in the year 1906, India supplied 75,673,683 pounds, China supplied 67,996,954 pounds and America 58,541,959 pounds. With three exceptions, all the mills in Japan used American cotton.

The total number of spindles in operation in the cotton mills of Japan last July was 1,373,739, and the cotton consumed that month was 35,814,125 pounds. The cotton industry in the island empire is growing rapidly.

Was a Fugitive from Justice.

Goshen, Ind., Dec. 26.—Who she fell from a Lake Shore train here and was injured, David Mack, a farmer, aged 40, and having a wife and two children at Delta, O., gave himself up and confessed that he tried to murder the Delta Town Marshal two weeks ago with a stove poker. Mack sought an officer and asked him to telephone the Wausen (Ohio) sheriff. The officer came for him and took him to Delta for trial. Mack, after assaulting the policeman, who hovered between life and death, went to Detroit and thence to Chicago. He was tired, he says, of evading the law. Mack's foot was nearly cut off when he slipped under the train.

Threw Gunpowder in Fire.

Clifton, W. Va., Dec. 26.—Cora, the 6-year-old daughter of W. J. Henderson, a wealthy farmer living 5 miles from here, threw a can containing two pounds of gunpowder in to an open grate. It exploded, blowing one of her eyes out and burning the hair off her head. Mrs. Henderson was also burned in a terrible manner. The father had been hunting, and set the can on a chair while he stepped out of the room.

A. & N. C. Lease Sustained.

Raleigh, N. C., Dec. 26.—The state supreme court sustained the lease made by the state of the Atlantic and North Carolina railroad, now a part of the Norfolk and Southern. Four justices concurred, but Chief Justice Clark filed a dissenting opinion. Formerly the Atlantic and North Carolina was operated by the state, and a demand that it be leased was based on the ground of bad management and poor results.

"RENEGING" FOR ROOSEVELT

Will Stand by Action in Discharging the Negro Troops.

Washington, Dec. 26.—President Roosevelt firmly reiterated to one of his visitors his declaration, as published that he will veto any measure that may be passed by congress looking to the restoration of the three companies of the Twenty-fifth infantry to the army, and his program, in the event that the measure should be passed over his veto.

There is no ground so far as can be ascertained from congressional visitors to the white house, for the supposition that congress would pass any bill of restoration against the wishes of the president. The president's declaration as to what he would do if pushed to the extremity, is believed to be an expression of opinion going to indicate how firmly convinced he is that he is right in his action as to the three companies.

The president expects to be fully prepared for any fight that may be inaugurated in the senate, either in favor of the troops or against him.

Some of his friends in that body do not believe that anything more than an investigation by a senate committee will ever come of the whole thing, and say that when this is done the subject will die out.

North Carolina's Pride.

Asheville, N. C., Dec. 26.—Mrs. George W. Vanderbilt will furnish and have in charge a room in the North Carolina building at the Jamestown exposition. This department will be one of the most attractive and interesting features of the North Carolina exhibit. The room will be handsomely furnished throughout in the rarest woods, all of which will be carved by hand. Rare old tapestry will adorn the walls. There will be exhibits of the products of the Biltmore estate and handiwork of the Biltmore Boys Club. Fine specimens of weaving done by the mountain women of western North Carolina will also be shown.

Large Number of Christmas Parcels.

Washington, Dec. 26.—The number of packages containing Christmas presents received at the White House this year is larger than for many seasons and they come from all parts of the country. Members of the president's family throughout the entire country and personal friends send most of the presents. It is a rule at the White House to accept Christmas presents when they are not of large value, which would place anybody under obligations. In case their value is above a reasonable sum they are returned to the shipper with thanks of the president.

Frightened Burglar with Revolver.

Carmi, Ills., Dec. 26.—Burglars have been active in this city for the last two weeks, many stores and residences having been entered. The home of Mrs. Lida Hill, a widow, was entered. Mrs. Hill, awakened by the noise, armed herself with a revolver and rushed into the kitchen, where the burglar was operating. The man showed fight and reached for his revolver. Mrs. Hill was too quick for him, and with her revolver held close to the intruder's head, she compelled him to retreat. She snapped the weapon three times, but unknown to her, her son, a schoolboy, had removed the cartridges.

Guilty of Bigamy; Released.

Lima, O., Dec. 26.—The circuit court here has handed down a decision holding that common-law marriages cannot be recognized under the laws of Ohio. The case at issue was that of David H. Bates, who lived with a woman to whom he was not married for two years, introducing her as his wife. Subsequently Bates, who married a young woman in Allen county. He was arrested and convicted in the criminal court on the charge of bigamy, but by the decision of the circuit court, he will be released from jail at once.

Good Order for Atlanta.

A PROMINENT VISITOR.

Rev. W. Moseley, Missionary Superintendent, Spent Two Days Here.

After a couple of days spent in this city with his friend, A. O. Steenburg, Rev. W. Moseley, superintendent of the Baptist missionary work in the island of Cuba, has gone on his way to New York.

Dr. Moseley is an eloquent speaker and a hard worker for the cause in which he is engaged. He has accomplished a great deal in recent years, since the island of Cuba has been made a republic, and is regarded highly by the Cubans.

Dr. Moseley is on his annual vacation, after a hard year's work in Cuba. He states that Americans may think it peculiar that he takes his vacation at this season of the year, leaving the balmy climate of Cuba to seek the chilly and piercing winds of the North, but it is easily understood when it is known that he is himself an American, accustomed to this climate, and desires to come when he can secure the exhilarating atmosphere here.

Dr. Moseley states that the missionary work is progressing nicely in Cuba, and that Americans are to be congratulated upon the religious and educational advancement of the people. They are becoming more enlightened, religiously, educationally and commercially, every day, and they give the people of the United States the credit for their advancement.

The contracting parties are among the most popular of the city, but their marriage was a surprise to a great many of their friends. It was known that they were socially on the best of terms, Mr. Goodman being a roomer at the home of Mrs. Garrett, but the announcement of a marriage between them had the effect of a delightful surprise.

While the marriage had not been generally announced, the business associates of Mr. Goodman, employes of the Dutton Phosphate Company, had in some manner been apprised of the fact and date, and surprised the groom with a handsome solid silver service of about fifteen pieces.

Mr. and Mrs. Goodman will continue to reside with the bride's mother. They have the best wishes of all friends.

Melrose, Dec. 24.—The Christmas tree at the Melrose school house, on the afternoon of Dec. 21, will be long remembered by all who were present as a most enjoyable affair. The large room was filled to overflowing with the children and their parents and friends, all gazing with pleasant anticipations at the pretty decorated stage and the large Xmas tree full of all manner of good things. The ceremonies began with a song by the children, followed by a short address by Rev. Julian. Next came recitations by Wealthy Yearwood, Marion Whitney, Gordon Baker, Mamie Goodson, Celia Baldwin and Marion Yearwood, alternating with a piano solo by Norah Mullin, a cradle song by six little girls, a trio by Ralph, Marie and Leuilla Games and a piano solo by Mrs. Games. All were much applauded. Next in order was an address by the supervisor, C. P. Hoffman, who at the close announced the arrival of Santa Claus to distribute the presents, and great was the joy and laughter when not only Santa Claus appeared, but it was seen that he had brought his wife along. Both were very cleverly represented by Frank Yearwood and Major McMillan. The scholars had not forgotten their teachers and presented Miss J. Anderson with a handsome set of comb and brush, a fruit-stand of irridescent glass and other pretty things, while the younger children presented to Miss M. Anderson a very pretty box containing comb, brush and manicure set. The new piano was much admired and its music helped much in the rendering of the program.

AS CASUALTIES AT HIGH SPRINGS

One Murder, One Lynching and Two Deaths by Accident.

RAILROAD WAS TO BLAME

Fireman Moody Met Death While on Duty Oiling His Engine, When Freight Train Ran Into Him—McNeily Was Run Down.

High Springs, Dec. 26.—Another fatal occurrence is to be recorded in the chapter of accidents for the past week at High Springs. Arthur O Moody, fireman on the switch engine, was killed Christmas morning in the south yard. He was under his engine oiling it when the freight train, No. 209, ran into it, crushing and killing him instantly. Mr. Moody was the son of David Moody of Cadillac, and leaves several brothers, among them T. J. Moody of High Springs and Jolin Moody of Alachua; also two sisters, Mrs. Mary Boseman and Mrs. Florence Chastene of Savannah.

Monday at 1:30 p. m., Lamar McNeily, a railroad employe in the yard, was run down and instantly killed by a train of cars near the depot. He was from Tampa, where his father is living. He leaves one brother, who is at work here, and two sisters living respectively in Atlanta and Havana. Both bodies have been prepared by Undertaker Summers, and they now lie in his office awaiting shipment to their respective homes for interment.

These terrible deaths are in sad contrast to the spirit of Christmas and have cast a gloom over the town. Both were young men, and both have many friends to mourn their untimely end.

The particulars of the killing of Dennis Osteen and the subsequent lynching of one of the negroes who shot him on Sunday night, mention of which occurred in The Sun, are as follows:

In the absence of a caller Conductor Waddell requested Dennis Osteen to get him a brakeman to go out on his train, which was then ready. Osteen was switch foreman and knew the regulars of the railroad hands, so he started to enter a colored restaurant in his search and met the daughter of the proprietor rushing out for an officer to quell a disturbance inside by two brothers, J. B. and Andrew Windbush, colored. Osteen entered and tried to quiet them, but was met with abuse of such a nature that he struck J. B. Windbush over the head with his lantern. The negro immediately shot at him twice, but failed to hit him. Osteen returned the fire, but it is uncertain whether his shots took effect as that negro has escaped. The other one, Andrew, had drawn his pistol in the meantime and shot Osteen twice. The first shot was fatal. Both negroes ran away, but Andrew was soon overtaken, and the sound of a volley of gunshot told the tale of swift retribution. The other negro has not been apprehended.

There Were a Number of Marriages in Alachua This Week.

Judge H. G. Mason, who presides over the destinies of the office to which he has been elected, has been busy for the past two or three days, principally in making out marriage licenses.

The genial Judge has at all times those packages to hand out, but in this instance he was kept unusually busy, since he had nearly a quarter of a hundred—which means in reality twenty-two.

The Judge was very accommodating, however, and issued licenses to all who came and could give any reasonable or legal excuse.

THE SUN WAS WRONG.

Dr. Harvey Smith Was Not Accused of the Misappropriation of Horse.

Dr. J. Harvey Smith, the colored physician who was accused through The Sun a day or two ago, feels aggrieved at the manner in which he had been treated, and wants to explain the matter.

Dr. Smith says he is entirely innocent of the allegation. He is not guilty of the misappropriation of a horse, but the property involved was a house, which Dr. Smith claimed was his own and for which he refused to give up the keys.

That is all there is to the story.

King of All Cough Medicines.

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. service for about sixteen years, says: "We have tried many cough medicines for croup, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad after effects." For sale by all druggists.

SIX MEN DROPPED BY BULLETS.

Man Runs Amuck Shooting Everyone In Sight.

Bowling, Green, Ky., Dec. 25.—Of the six men wounded by Tom Wilson, who ran amuck in the business section of this city, Policeman Pete Bardemaker is dying, and Homer Still is in a critical condition. The other four were not seriously hurt.

Posses organized after the shooting, are still hunting Wilson, but seem to have lost the trail. It is understood Wilson renewed his supply of ammunition, and if surrounded, he is expected to fight to the death.

No explanation for Wilson's actions have been advanced, but it is assumed he was either crazy or of a ferocious temper. Last evening he appeared in a dry goods store, and although apparently sober, began cursing the proprietor, Homer Still, a clerk, assisting his employer in an attempt to eject Wilson, whereupon the intruder drove a knife through the clerk's lung. Wilson ran home and secured an automatic shotgun with a supply of shells. Returning to the public square he defied arrest, and when Bardemakekr approached, shot him, inflicting a fatal wound. A man in the crowd which began pursuing him, emptied his revolver at Wilson, but missed him.

Wilson then began firing at every one in sight, and also into several houses. W. S. Waunby, a special agent of the department of commerce and labor, but his head out of a window and received several small shot in the face.

Hubert Cherry was shot in both legs, and two other men received slight wounds. Except Bardemaker and Still, none of the wounded was seriously hurt. Mr. Waunby left immediately for Batavia, N. Y., declaring that he would never set foot on Kentucky soil again.

May Rescind Order.

Muskogee, I. T., Dec. 25.—Indian Inspector J. G. White, received notice from the interior department regarding rescinding the late order to shut down all oil and gas wells in the Osage nation. The wells, with the exception of three, were closed by Deputy Marshals a few days ago. The first order followed an investigation by the government, it being charged that over 4,000 acres had been leased to one company or operator, which is against the rules and regulations of the department. The Indian inspector is now preparing a report on the oil and gas situation in the Osage nation at the request of the secretary of the interior.

Increase in Immigrants.

New York, Dec. 25.—Figures just compiled at Ellis Island indicate that at the present rate of increase 1,283,145 aliens may be expected to enter this country through the immigration station on Ellis Island next year. "The number of aliens who will land at New York this year," said Immigration Commissioner Wachorn yesterday, will approximate 1,050,000 persons, as against a total of 859,010 who landed herein 1905. This shows an increase in the immigration of about 22.23 per cent. Using these figures as the basis for an estimate for 1907, we may expect 1,845,000 aliens to arrive at Ellis Island."

Cold Weather in New York.

New York, Dec. 25.—The coldest weather New York has known this winter came Monday when the thermometer went down to 8 degrees above zero. A keen northwest wind was blowing at the rate of 20 miles an hour, added to the discomfort of pedestrians. William Reiley was found unconscious by the police. His hands were frostbitten and he said he had been unable to find work.

NINE PEOPLE KILLED IN TRAIN COLLISION

At Fast Speed Train Dashes Into Switch Engine

THE COACHES ARE SPLINTERED

Moans of the Dying Mingled With The Anguished Cries of the Injured and Many of The Injured Cannot Possibly Live.

Enderlin, N. D., Dec. 25.—Loaded to its full capacity with people going to their homes in the east to spend the Christmas holidays, the fast bound train on the Minneapolis, St. Paul and Sault Ste. Maries, crashed into a switch engine in the west end of the railroads yards at this place Sunday morning.

Eight men were killed outright, and one had died of his injuries. Thirty-seven were seriously injured, and it is likely that the death list will be added to. All of the fatalities occurred in the smoking car, which was completely telescoped by the baggage car.

Here also were most of those who were injured, only two of the occupants of this car escaping injury. The car was crowded, and as the whistle had just sounded for Enderlin almost every one was on his feet when the crash came, and the dead and wounded were piled into almost inextricable masses.

As this point is a divisional headquarters of the road, a rescue party soon formed, and assisted by citizens the work of taking out the dead and injured was begun at once, and continued throughout the night. The little hospital was soon crowded to its full limit with those hurt, and the hotels were converted into emergency hospitals, where the other injured were cared for.

The wreckage took fire from the overturned stoves used in heating the cars, and there was a race between the rescuers and flames. By almost superhuman efforts the rescuing party managed to fight off the flames until all the dead and injured had been removed from the wrecked cars, which were then allowed to burn to get them out of the way.

Only a few passengers in the day coaches were injured, and in the sleeping coaches, none of which left the track, there were no casualties.

The train wrecked was the accommodation which runs from Moosejay, Sask., to St. Paul. It is due at Enderlin at 11:45 p. m. but was about two hours late. The engineer was running at a high speed in an endeavor to make up lost time. As he swung around a curve just before entering the yards at Enderlin, a switch engine was shifting a string of cars onto a siding. The cars did not clear the main track, and the passenger engine collided head-on with the switch engine.

DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strenuousness of the American people has a strong tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on *Materia Medica* for the cure of just such cases. Golden Seal root, for instance, is said by the UNITED STATES DISPENSATORY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery," so far as its marvelous cures of valvular and other affections of the heart are concerned, is Stone root, or *Collinsonia Can.*, Prof. Wm. Paine, author of Paine's Epitomy of Medicine, says of it:

"I, not long since, had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him up-stairs. He, however, gradually recovered under the influence of Collinsonin (medicinal principle extracted from Stone root), and is now attending to his business. Heretofore physicians knew of no remedy for the removal of so distressing and so dangerous a malady. With them it was all guess-work, and it fearfully warned the afflicted that death was near at hand. Collinsonin unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and *permanent* influence."

"Golden Medical Discovery," not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

Learned Brothers Fate in Dream.

Columbus, Ind., Dec. 26.—Mrs. Lou Glick, of this city, dreamed that her brother, Dr. Elijah T. Fogel, had been run down by a street car at Elwood, Ind., and fatally injured. The next day she left to spend the holidays, but the dream preyed upon her mind to such an extent that she stopped at Elwood to ascertain if all was well with her brother. She found that he had been run by a car 30 minutes before her arrival and was fatally hurt. Dr. Fogel, who was also a Methodist preacher, was a graduate of the Ecletic School of Medicine, of Cincinnati.

A Western Wonder.

There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure cough and cold cure. Guaranteed by all druggists. 50c and $1. Trial bottle free.

Four Burned to Death.

Norfolk, Va., Dec. 26.—The wife and child of Samuel Poyner, of Norfolk county, and the wife and child of William Grimstead, of Princess Anne county, were burned to death at the Grimstead house on Morris Neck in Princess Anne county, while Messrs. Poyner and Grimstead slept in another part of the house until the fire spread to the room in which they were and woke them barely in time to permit them to escape from the house in their night clothes.

Mrs. S—, Columbia, Tenn., writes: "I always keep a supply of your Herbine on hand. Am so well pleased with the relief it gives in constipation and all liver complaints that words can't express my appreciation." Sold by W. M. Johnson.

Kept Money In His Trunk.

Columbus, Ga., Dec. 26.—A strong argument for saving's banks was presented when $5,000 in bills went up in smoke at the residence occupied by J. W. Favors, in Wynnton. The house caught fire on the roof, possibly from firecrackers, and the trunk containing the above amount of cash in bills was consumed. Mr. Favors had no insurance.

New Cure for Epilepsy.

J. B. Waterman of Watertown, O., Rural Free Delivery, writes: "My daughter, afflicted for years with epilepsy, was cured by Dr. King's New Life Pills. She has not had an attack for over two years." Best body cleaners and life giving tonic on earth. 25c at all drug stores.

TIED UP IN NEW ORLEANS.

Southern Pacific Railroad Suffers from Effect of Strike.

New Orleans, La., Dec. 26.—The New Orleans gateway for trans-continental freight to western points was almost completely closed Monday by the Southern Pacific, which refused to accept even local offerings. Union officials claimed that 50 men are on strike in this city.

Despite this tie-up, local Southern Pacific officials announced themselves as uncertain whether the strike will prove serious. It was said that passenger trains were moving about as usual, but that it may be several days before the company learns exactly what it can do toward moving freight.

At the big freight terminals on the west bank of the Mississippi considerable secrecy was maintained, admission being denied to every one except employees. It was learned that as trains were made up and about ready to start attempts were made to secure crews to fill vacancies.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

Says Estate Has Been Looted.

New York, Dec. 26.—Announcement is made that Philadelphia's missing heiress, May Miller Kuehn, with her husband, Dr. Rolando Kuehn, is in the city. She arrived from Queenstown, Ireland, on the Umbria, of the Cunard line. She had, it is stated, been in her father's old home, Knobmoyle, near Maagah, county of Tyrone, Ireland, and among his relatives in that neighborhood for three weeks, collecting evidence to support a charge which she says will be made upon her return to Philadelphia this week, that his estate has been looted.

A Miraculous Cure.

The following statement by H. M. Adams and wife, Henrietta, Pa., will interest parents and others. "A miraculous cure has taken place in our home. Our child had eczema 5 years and was pronounced incurable, when we read about Electric Bitters, and concluded to try it. Before the second bottle was all taken we noticed a change for the better, and after taking 7 bottles he was completely cured." It's the up-to-date blood medicine and body building tonic. Guaranteed. 50c and $1 at all drug stores.

Blinded by Snow.

Hammond, Ind., Dec. 26.—Dr. J. Noland, a surgeon for the Erie railroad, Huntington division, was killed near North Judson, 20 miles east of Hammond. He was walking along the track returning from a call on a dying patient, when, blinded by the snow, he was struck by the New York-Chicago limited and cut to pieces. He was 50 years old, and one of the most prominent physicians in Northern Indiana.

"THAT GRAND PRIZE."

Under the above title The Gainesville Sun replies to our criticism in last week's issue of an article by The Sun condemning in very positive terms the action of the judges in dividing the grand prize between Alachua and Polk counties at the recent State Fair. We admire the fair and moderate spirit of The Sun's reply, and wish to assure Bro McCreary that our strictures were not intended for him or for the paper which he so ably conducts, but for the parties who furnished the so-called information as to matters at the Fair. It is true we did express surprise that The Sun should publish such an article, but on cool reflection we admit that we took the matter rather too seriously.

We own up to a very considerable amount of county pride, and whenever the standing of Polk is in any way called into question we are always ready to wield the biggest stick we can handle in her defense. We thought the article in question did injustice to Polk county, and we think so yet, but there was really no necessity for quarreling over it. People will differ on every question to the end of time. The representatives of Alachua and Polk at the Fair viewed the matter of the award from different standpoints. Let us then amicably "agree to disagree," "bury the hatchet" and "smoke the pipe of peace."

In justice to Commissioner Ruhl, we will state that he positively denies that he stated to any one, before the decision of the judges was made known, "that Alachua had undoubtedly won the grand championship prize." He admits that he did say that if Polk did not win it he had rather see it won by Alachua than by any other county. This certainly did not show and spirit of jealousy, but rather of friendly appreciation on the part of Commissioner Ruhl.—Bartow Courier-Informant.

The Sun accepts the above reply in the spirit in which it is made, and thanks General Law, the veteran editor of The Courier-Informant, for the compliment he pays The Sun.

We agree to "bury the hatchet," "smoke the pipe of peace," and "agree to disagree," so far as we are personally concerned, the matter in dispute now being entirely between Mr. Ruhl and our informants, the latter contending as positively that Mr. Ruhl did make the statement as he is in his denial.

No effort or expense should be spared by the city authorities to arrest and punish the person or persons guilty of turning in false alarms of fire. The guilty parties are either ignorant of the enormity of the offense, or they are criminals in every sense of the word. These false alarms not only greatly inconvenience the firemen who give their services free, but it tends to make them indifferent about turning out to a fire, not knowing whether the alarm is false or not. After the two false alarms on Christmas Eve night it is not probable that many members of the department would have responded to another alarm that night.

According to the report from the government printing office Congressmen and Senators are not regarded as infallible spellers, which one would think would have induced them to adopt the simplified style recommended by the President which they turned down in such a cold-blooded way.

Prof. North and the other tariff commissioners to Germany seem to be having a continual love feast there, but it is not probable they are getting much nearer to a solution of the reciprocity issue with a standpat Congress standing like a lion in the path.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

TARIFF OR RECIPROCITY.

The Department of State reports that the tariff struggle impending with foreign nations cannot be postponed unless the United States is willing to make reciprocal concessions on tariff rates with the countries involved in the controversy. That is, our tariff rates must be reduced if we expect to be treated as a favored nation, otherwise the prohibitive rates of duty that Germany, France and other countries are about to put in force against those nations that also exact the highest rates will be also charged on imports from the United States. The report says:

"It was not denied that governments like France and Germany would be willing to make material concessions, but they insist as a condition precedent to such action that the United States should be prepared to show a similar degree of generosity. This latter phase of the case, it is said, will continue to be the stumbling block to all negotiations, and that unless the United States overhauls its duties on European imports in such a way as to give them a greater chance in this country it will be futile to attempt to secure tariff favors from abroad."

What will our standpat statesmen do about it? Will they see our export trade with those countries destroyed by their impassable tariff walls, because they dare not reduce the tariff that protects our own monopolists—the trusts and combines? There is no doubt that the tariff dilemma foretold by the Democrats confronts the Republicans, for if they refuse to revise the tariff considerable foreign trade wil be lost. On the other hand if they attempt to "tinker with the tariff" the whole scientific structure of protectionism will tumble about their ears and they would lose the campaign contributions from the trusts which they now enjoy.

Six messages from the President in one week was too much for the Republican majority of Congress, so they had to adjourn for two weeks to take time to consider what President Roosevelt recommends. Most of us have not yet had time, and probably will never get the time, to read the message sent in at the opening of Congress, let alone these six additional messages.

An Ordinance Providing for the Issuance of Bonds Under the Provisions of an Act of the Legislature of the State of Florida, Entitled: "An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of Those Powers."

Be It Ordained by the Mayor and City Council of the City of Gainesville, Florida:

Section 1—The Mayor and the City Council of the City of Gainesville, in their corporate capacity, under the authority of an Act of the Legislature of the State of Florida, entitled: "An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of those Powers," approved on the 9th day of May, A. D. 1905, hereby provide by ordinance for the issuance of bonds of said city, as hereinafter provided, to be known as "Municipal Bonds of the City of Gainesville," to the amount of TEN THOUSAND ($10,000) DOLLARS. The principal and interest of said bonds shall be payable in gold coin of the United States of the present standard of weight and fineness, and for the payment thereof, principal and interest, the entire taxable property of said city and the public utilities acquired and owned by said city shall stand pledged by this ordinance. Each of said bonds shall be of the following denominations, viz: Five hundred dollars. Said bonds shall be dated the 1st day of February, A. D. 1907, and each of said bonds shall bear interest at the rate of five per cent per annum, payable semi-annually, at the end of periods of six months from the date of the bond. The principal of said bonds shall become due on the following date, viz: On or before February 1st, 1917. Said bonds and the interest thereon shall be payable at the office of the City Treasurer of the City of Gainesville. The proceeds arising from the sale of said bonds, at not less than par value, and the purpose for which the issue of bonds proposed to be issued by this ordinance shall be used, is the following, viz: the money arising from the sale of said bonds, or so much thereof as may be necessary, shall be used to purchase and acquire the following described lot or parcel of land situated in said City of Gainesville, and more particularly described as follows, towit: All of Block 5, Range 8, according to the original survey of said city; provided, however, that none of said bonds shall be issued until after the issuance thereof, under the provisions of this ordinance, shall have been approved by a majority of the votes cast by the qualified electors of said city, at a special election which shall be held for that purpose on the 15th day of January, 1907, in accordance with this ordinance.

Sec. 2—The Mayor and City Council shall levy and collect annually such special tax on the taxable property within the corporate limits of said city as may be necessary to pay the interest on said bonds, and to provide a sinking fund for the payment of said bonds.

Sec. 3—Said bonds shall be printed or engraved with interest coupon attached, payable as by this ordinance provided. Said bonds shall be signed by the Mayor, countersigned by the President of the City Council, and attested by the City Clerk, and shall bear the corporate seal of said city, and the interest coupons shall bear an engraved or printed fac-simile of the signature of the City Treasurer. When said bonds shall have been so signed and sealed they shall be turned over to the Board of Public Works, who shall be trustee for said bonds, and shall be by said Board offered for sale to the highest and best bidder for cash, on sealed bids, but said Board shall have and reserve the right to reject any and all bids, and shall not sell any of said bonds for less than par value. The proceeds for the sale of said bonds, as soon as received by said Board, shall be turned over to and deposited with the City Treasurer of said city. Said money shall be paid out by said Treasurer on the order of the City Council of said city, for the purpose for which said bonds are authorized by this ordinance to be issued.

Sec. 4—Said bonds shall be payable to bearer and shall be delivered by said Board of Public Works only after being countersigned by the Chairman and Secretary of said Board, whereupon said bonds shall become payable to the lawful bearer thereof. It shall be the duty of the Board of Public Works, as bond trustees, when any bond is sold or issued by them, to register the same in a book to be kept for that purpose and said Board shall keep an accurate account of all bonds and coupons outstanding and of all such as may be paid.

Sec. 5—It shall be the duty of the Board of Public Works on or before the first day of July, of each and every year, to report to the City Council the number of said bonds outstanding, with an estimate of the amount necessary to be raised for interest and sinking fund, which statement and estimate shall serve as a basis of assessment by the City Council for the ensuing year for that purpose.

Sec 6—The Mayor of the City of Gainesville is hereby directed to issue his proclamation calling a special election to be held in said city on the 15th day of January, 1907, to determine whether the issuance of bonds proposed by this ordinance to be issued shall be approved by a majority of the votes cast by the qualified electors of said city at said special election, and said proclamation and this ordinance shall be published in a newspaper printed in said city at least once each week for four consecutive weeks, the beginning of such publication being made immediately upon the adoption and approval of this ordinance. Each elector desiring to vote for or against the approval of the the issue of bonds for ten thousand dollars for the purpose mentioned in this ordinance may vote a paper ballot containing the words: "For municipal bonds ten thousand dollars," or "Against municipal bonds ten thousand dollars," and each of said ballots shall be counted as a ballot approving or disapproving, as the case may be, the issuance of the bonds for the purpose mentioned in this ordinance. The said special election shall be called, held, conducted and the returns thereof canvassed, in all other respects, as nearly as may be practicable in compliance with the rules, regulations and ordinances governing and controlling the general city elections of said city.

Sec. 7—The City Council shall prepare and furnish all necessary blanks and ballots, and shall make all necessary preparation for said special election, and shall pay for the same out of the proper fund in the City Treasury. The ballots to be used in said election shall be substantially in the following form:

AFTER 15 DAYS SPENT IN TOMB

Rescued Miner Tells of His Terrible Experience.

CORPSES OF COMPANIONS NEAR

When Rescued Hicks Was So Strong That He Did Not Need Stimulants —His Rescue Was a Marvelous Piece of Work.

Bakersfield, Calif., Dec. 25.—Linsay B. Hicks, released Saturday night from an entombment of 15 days in a caved-in tunnel, appeared well and happy after his gruesome experience. He received the congratulations of friends and neighbors, to whom he related as best he could the feelings he underwent within the dark and close quarters of his tomblike prison near the dead bodies of five less fortunate companions while a large force of men worked like beavers day and night for more than two weeks to save him from death by digging through many feet of earth and rock.

Hicks was once a soldier, and he is said to carry some Indian blood in his veins. He was so strong that the stimulants that had been prepared for him were not needed.

It was 11:50 Saturday night when Hicks was released. The last cut on the drift was made at 11:12 o'clock and no sooner was the sedgment of debris removed and the way left open than Hicks began to scrape away the rocks and earth and crawl toward the opening.

With arms in front of his head, he went into the minature tunnel and began to work his way slowly through to the other side of a dump car, near which he has remained during the excavating. When he had progressed about half way, he stopped and Superintendent Frank Miller, who stood at the tube at the mouth of the shaft, called out and asked what was the matter.

"Oh, nothing," Hicks called back. "I'm just going to stop. I'm out of wind. My wind is very short, you know."

Then Hicks moved a few inches further toward freedom, and his arms were seized by Dr. Stinchfield and Miner Gents, who pulled him into the main tunnel, where he was placed in a sitting position.

The blindfold that Hicks had been ordered to put on was removed, as the tunnel was only dimly lighted by candles. With tears in his eyes, Hicks said to Stinchfield:

"I'm feeling fine. I can never thank you, doctor, for what you have done."

He then thanked Superintendent Cone, of the Edison works, who later expressed his gratification at the miner's rescue.

While working on a tunnel that was being built by the Edison Power company near Bakersfield on Dec. 17, the vertical walls of a deep cut fell in on Hicks and five fellow workmen. It was first thought that all had perished.

Three days later a tapping on the iron rail of the little tramway running through the drift gave the first intimation that a man still alive was buried beneath the debris. The rescue work has progressed steadily since.

While the last steps were being taken in his rescue, Superintendent Cone, who led the rescue party, called to Hicks, and told him he was still on the payroll. He said:

"You have been a most faithful man, Hicks. You have been on duty for fifteen days and nights, and never asked for a day off. You have been drawing pay all the time."

KILLED GIRL; WOUNDS SELF.

The Tragedy Occurred in Man's Home and Cause Unknown.

Atlanta, Dec. 25.—W. J. Hightower, a painter, about 25 years old, Monday morning shot and killed Bessie Jones, a mill operative, who boarded at his house, and then shot himself through the left temple.

The girl died instantly and Hightower was removed to the Grady hospital mortally wounded.

The shooting ocurred in the young woman's room. Members of Hightower's family heard the shots and running into the front room, found Bessie Jones partly clad, lying in bed dead, havig been shot through the right temple. Hightower, with pistol grasped in his hand, was also lying across the bed, fatally wounded.

Mrs. Hightower, the wife of the man who enacted the tragedy, and several children, were in the house at the time of the shooting. Mrs. Hightower was too dazed and seemed hardly to realize fully what had happened.

Hightower is said to have figured in another shooting affair some time ago.

In Praise of Chamberlain's Cough Remedy.

There is no other medicine manufactured that has received so much praise and so many expressions of gratitude as Chamberlain's Cough Remedy. It is effective, and prompt relief follows its use. Grateful parents everywhere do not hesitate to testify to its merits for the benefit of others. It is a certain cure for croupe and will prevent the attack if given at the first appearance of the disease. It is especially adapted to chidren, as it is pleasant to take and contains nothing injurious. Mrs. E. A. Humphreys, a well known resident and clerk in the store of Mr. E. Lock, of Alice, Cape Colony, South Africa, says: "I have used Chamberlain's Cough Remedy to ward off croupe and colds in my family. I found it to be very satisfactory and it gives me pleasure to recommend it. For sale by all druggists.

Thrust a Knife into Him.

Madison, Ind., Dec. 26.—Aleck Elliston, aged 28 years, harboring an old grudge against James Caswell, of Brooksburg, met the latter on the street here and with a knife nearly disemboweled him. Caswell is dying at a hospital. Elliston is in jail. Earlier in the day Dan Whitham, wanted in Ripley county for a murderous assault, escaped from Sheriff Gray, who at once appointed Elliston a deputy to capture him. Elliston did so and turned him over to the sheriff.

FLUE CURING IMPROVES TOBACCO LIKE ROASTING IMPROVES GREEN COFFEE

Flue Curing Develops the Stimulating Aroma and Taste Found in Schnapps that Satisfies Tobacco Hunger

There are three ways used by farmers for curing and preparing their tobacco for the market; namely, sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured. In flue-curing the tobacco is taken from the field and suspended over intensely hot flues in houses especially built to retain the heat, and there kept in the proper temperature until this curing process developes in the tobacco the stimulating taste and fragrant aroma found in Schnapps tobacco, just as green coffee is made fragrant and stimulating by the roasting process. Only choice selections of this ripe, juicy flue cured leaf, grown in the famous Piedmont country, where the best tobacco grows, are used in Schnapps and other Reynolds' brands of high grade, flue cured tobaccos.

Hundreds of imitation brands are on sale that *look* like Schnapps; the outside of the imitation plugs of tobacco is flue cured, but the inside is filled with cheap, flimsy, heavily sweetened air cured tobacco; one chew of Schnapps will satisfy tobacco hunger longer than two chews of such tobacco.

Expert tests prove that this flue cured tobacco, grown in the famous Piedmont region, requires and takes less sweetening than any other kind, and has a wholesome, stimulating, satisfying effect on chewers. If the kind of tobacco *you* are chewing don't satisfy, more than the mere habit of expectorating, stop fooling yourself and chew Schnapps tobacco.

Schnapps is like the tobacco chewers formerly bought costing from 75c. to $1.00 per pound; Schnapps is sold at 50c. per pound in 5c. cuts, strictly 10 and 15 cent plugs.

Strike Not Felt in Northern Texas.

Dallas, Tex., Dec. 26.—Apparently the strike of firemen on the Southern Pacific railroad is but slightly felt in north Texas. The Houston and Texas Central is not seriously affected and the Texas and New Orleans railroad has but few men located at Dallas. These two roads form part of the Atlantic division of the Southern Pacific system. Monday's Texas and New Orleans through train was reported four hours late. It was said that the train carried nothing but United States mail cars. Railway men declare that on Friday 40 men were brought to Dallas for the purpose of help breaking the strike. These men have already been given employment.

A Family Party.

Among other interesting family dinners on Christmas was a family dinner at the home of Mr. and Mrs. C. A. W. Thomas which would have been good enough for the best connoisseurs of this country. It was composed of all the good things to make a Christmas dinner, including the Christmas turkey, and 'Squire Thomas, his good wife, his daughters and his sons, sat down with a heart full of gratitude for the occasion.

Among those present from out of town, members of the family, were Mr. and Mrs. H. A. Thomas and Neill Thomas of Palatka. The dinner was a most enjoyable one in every way, and was the first family reunion for several years.

M. S. Wetherington of Micanopy was in town yesterday and made The Sun an agreeable call, having the date on his subscription marked up two and a half years. He reports no damage to the orange trees in his section, but vegetables not under cover were killed.

Hon. J. S. Willis of Williston, member of the Legislature from Levy county, was in the city Tuesday. He reports considerable interest already manifested in the coming election to fill the vacancy for State Senator, caused by the recent death of Senator Carter. While the only avowed candidate at the present time is O. J. Farmer, editor of The Bronson Times-Democrat, there is no doubt but that John R. Willis will be a candidate, and it is very probable that Gus Morton will also shy his castor into the ring. There will be no primary, and the candidate who gets the most votes in the special election will be the winner.

MARIETTA HAS SERIOUS FIRE.

Whole Business Portion of City Was Threatened.

Marietta, Ga., Dec. 26—The Georgia Manufacturing and Public Service company's plant was almost entirely destroyed by fire Monday, the old portion of the plant being the worse wrecked, and the new portion being badly damaged.

Moultrie M. Sessions is president of the company. It was formerly the Marietta Paper Mills, but recently incorporated as the Georgia Manufacturing and Public Service Corporation. This company operated the electric power plant, the city's lighting service and the city waterworks in addition to the paper mills.

The lighting plant was in the new portion of the building, and this was not so severely injured by the flames as the other and it is expected that the damage to wires and machinery will be repaired some time in the next 24 hours.

The fire is supposed to have originated in the chemical room of the paper mill and to have been due to the explosion of chemicals used in the bleaching process. The flames for awhile threatened the whole business section of Marietta and the fire department of Atlanta was called upon for assistance, but shortly afterwards the Marietta department succeeded in geting the fire under control and Atlanta was wried not to send the aid formerly requested. The Marietta Chair Factory and the Marietta Ice company's plants were dangerously close to the burned district and for a while was in imminent danger.

During the progress of the flames the firemen were seriously handicapped by the inadequate water supply.

Powell Killed by Officer.

Cedartown, Ga., Dec. 26.—Policeman Lawrence Hunt shot and killed Tom Powell, a carpenter, who resided in the eastern part of the city, in an attempt to arrest him. It is stated that Powell was drinking. He had been giving considerable trouble during the day and at one time had shot at his son-in-law. A call for the police was sent in and Officer Hunt and Wright answered the call. Powell barricaded himself in the house upon learning of the approach of the police, where he remained until he thought the officers had departed. Upon opening the door and seeing the officers, he advanced upon them with his shotgun and fired, but Patrolman Hunt was too quick for him and fired about the same time, his shots taking effect and killing Powell. Powell's shot went astray.

Elected Constitutional President.

Guayaquil, Ecuador, Dec. 26.—The national assembly Monday formally elected General Eloy Elfaro, the acting president, to be constitutional president for four years. The election of Alfaro, who received a large majority of the votes cast is very popular. The republic now seems to be entirely pacified and the commercial outlook is most favorable to the abolition of the import duty on sugar and the opening of this market to the sugar refineries of the United States of America.

Two Killed by a Train.

Atlanta, Dec. 26.—E. G. Grubbs, a young white man 23 years of age, living with his wife and 4-months-old child at the home of his father, A. J. Grubbs, on Whiteford avenue, in Edgewood, a driver and collector for the Guthman steam laundry, was killed Monday by an outbound Southern railway switch engine at the North avenue crossing. A 13-year-old negro boy called "Pate," who was also on the wagon, was killed at the same time.

Bryce Winding Up Affairs.

Dublin, Dec. 26.—James Bryce, who is to succeed Sir Mortimer Durand as British ambassador at Washington has returned to the chief secretary's office in the castle and is busy winding up public affairs there, preparatory to handing over the post to his successor. It is understood Mr. Bryce will leave for Washington about the middle of February. There is a disposition in Dublin to regard Augustin Barelli, president of the board of education, as the most probable ...essor of Mr. Bryce in Ireland.

JAPAN TO INVADE CHINESE MARKETS

Little Brown Men, it Is Stated, May Cut Into

Japanese Merchants Are Reaching Out To Capture the Cotton Markets of China and Relieve Americans of this Business to as Large a Degree as Possible.

Washington, Dec. 26.—Japanese merchants with the aid of the government are reaching out to capture the cotton markets of China and relieve Americans of this business to as large a degree as possible.

Consul John E. Jones, of Dalny, has reported to the state department how persistent are the efforts in this direction. In the past six months, says Mr. Jones, the mills in Japan have increased their spindles with the object of capturing the Chinese markets. There is evidence the Japanese government not only looks with favor on the enterprise, but is lending aid.

Japan, according to Mr. Jones, has many things in her favor in her efforts to capture the Chinese cotton market, including cheap concentrated labor, understanding of the wants of the Chinese and geographical position.

China is producing large quantities of cotton, but the quality is not good and has to be mixed with either the American or Indian cotton to produce a good fabric.

Japan uses large quantities of Chinese cotton in the making of textiles and will seek control of the supply. Mr. Jones says Japan is even now growing cotton in Korea in order to make herself independent of the foreign supply.

Of 209,574,662 pounds of raw cotton used by the Japanese cotton mills in the year 1906, India supplied 75,673,683 pounds, China supplied 67,996,954 pounds and America 58,541,959 pounds. With three exceptions, all the mills in Japan used American cotton.

The total number of spindles in operation in the cotton mills of Japan last July was 1,373,730, and the cotton consumed that month was 35,814,125 pounds. The cotton industry in the island empire is growing rapidly.

Was a Fugitive from Justice.

Goshen, Ind., Dec. 26.—Whe nhe fell from a Lake Shore train here and was injured, David Mack, a farmer, aged 40, and having a wife and two children at Delta, O., gave himself up and confessed that he tried to murder the Delta Town Marshal two weeks ago with a stove poker. Mack sought an officer and asked him to telephone the Wausen (Ohio) sheriff. The officer came for him and took him to Delta for trial. Mack, after assaulting the policeman, who hovered between life and death, went to Detroit and thence to Chicago. He was tired, he says, of evading the law. Mack's foot was nearly cut off when he slipped under the train.

Threw Gunpowder in Fire.

Clifton, W .Va., Dec. 26.—Cora, the 6-year-old daughter of W. J. Henderson, a wealthy farmer living 5 miles from here, threw a can containing two pounds of gunpowder in to an open grate. It exploded, blowing one of her eyes out and burning the hair off her head. Mrs. Henderson was also burned in a terrible manner. The father had been hunting, and set the can on a chair while he stepped out of the room.

A. & N. C. Lease Sustained.

Raleigh, N. C., Dec. 26.—The state supreme court sustained the lease made by the state of the Atlantic and North Carolina railroad, now a part of the Norfolk and Southern. Four justices concurred, but Chief Justice Clark filed a dissenting opinion. Formerly the Atlantic and North Carolina was operated by the state, and a demand that it be leased was based on the ground of bad management and poor re...

...D "RENEGING" FOR ROOSEVELT

Will Stand by Action in Discharging the Negro Troops.

Washington, Dec. 26.—President Roosevelt firmly reiterated to one of his visitors his declaration, as published that he will veto any measure that may be passed by congress looking to the restoration of the three companies of the Twenty-fifth infantry to the army, and his program, in the event that the measure should be passed over his veto.

There is no ground so far as can be ascertained from congressional visitors to the white house, for the supposition that congress would pass any bill of restoration against the wishes of the president. The president's declaration as to what he would do if pushed to the extremity, is believed to be an expression of opinion going to indicate how firmly convinced he is that he is right in his action as to the three companies.

The president expects to be fully prepared for any fight that may be inaugurated in the senate, either in favor of the troops or against him.

Some of his friends in that body do not believe that anything more than an investigation by a senate committee will ever come of the whole thing, and say that when this is done the subject will die out.

North Carolina's Pride.

Asheville, N. C., Dec. 26.—Mrs. George W. Vanderbilt will furnish and have in charge a room in the North Carolina building at the Jamestown exposition. This department will be one of the most attractive and interesting features of the North Carolina exhibit. The room will be handsomely furnished throughout in the rarest woods, all of which will be carved by hand. Rare old tapestry will adorn the walls. There will be exhibits of the products of the Biltmore estate and handiwork of the Biltmore Boys Club. Fine specimens of weaving done by the mountain women of western North Carolina will also be shown.

Large Number of Christmas Parcels.

Washington, Dec. 26.—The number of packages containing Christmas presents received at the White House this year is larger than for many seasons and they come from all parts of the country. Members of the president's family throughout the entire country and personal friends send most of the presents. It is a rule at the White House to accept Christmas presents when they are not of large value, which would place anybody under obligations. In case their value is above a reasonable sum they are returned to the shipper with thanks of the president.

Frightened Burglar with Revolver.

Carmi, Ills., Dec. 26.—Burglars have been active in this city for the last two weeks, many stores and residences having been entered. The home of Mrs. Lida Hill, a widow, was entered. Mrs. Hill, awakened by the noise, armed herself with a revolver and rushed into the kitchen, where the burglar was operating. The man showed fight and reached for his revolver. Mrs. Hill was too quick for him, and with her revolver held close to the intruder's head, she compelled him to retreat. She snapped the weapon three times, but unknown to her, her son, a schoolboy, had removed the cartridges.

Guilty of Bigamy; Released.

Lima, O., Dec. 26.—The circuit court here has handed down a decision holding that common-law marriages cannot be recognized under the laws of Ohio. The case at issue was that of David H. Bates, who lived with a woman to whom he was not married for two years, introducing her as his wife. Subsequently Bates, who married a young woman in Allen county. He was arrested and convicted in the criminal court on the charge of bigamy, but by the decision of the circuit court, he will be released from jail at once.

DIAZ TO DEMAND WATER DAMAGES

Overflow of the Colorado River Must Be Remedied

TO SAVE DAMAGE TO PROPERTY

California Company Will Be Informed that It Must Close the Gap on the Border and Check the Waters which Flow Into the Salton Sink.

Washington, Dec. 26.—The state department has been advised by Mr. Thompson, the American ambassador to Mexico, that the president of the Mexican republic has taken prompt action looking to the remedying of the damage to property in the imperial valley, as the result of the overflow of the Colorado river into the Salton sink.

President Diaz, through the department of formento, colonization and industry, has advised the Compania de Riegos y Terrenos de la Baja, of California, that in view of the irreparable damage which property is liable to suffer in the imperial valley, in case the overflow of the Colorado river continues towards the Salto sea, the present conditions must have a prompt and efficient remedy. For this purpose the chief executive has ordered that the company should demonstrate to the satisfaction of the chief of the Mexican boundary and river commission, within the peremptory term of ten days that the company possesses, "has at its immediate deposit and shall invest in the proper way, the capital, implements, laborers and all such elements as may be indispensable to (within the term of three months disignated for the purpose), control the situation of the Colorado river, close the open gap on its borders, and definitely return the waters to their old bed."

The same chief executive has ordered, besides, that the company be informed that in case it does not give the demonstration in question under conditions and terms fixed, action will be taken to annul the concession to divert the waters of the Colorado river.

This action was taken as the result of negotiations conducted by this government with the Mexican authorities.

Spent Life In Fighting Trust.

Pittsburg, Dec. 26.—Davis Kirk, one of the pioneer oil operators of Pennsylvania and for many years a noted figure in public-spirited enterprises is dead, aged 76 years. Mr. Kirk was always identified with independent oil operations. He was active in the formation of the Producers Protective association, and was the first President of the Pure Oil company. In 1888, when the house committee on manufactures investigated trusts, he was one of the chief witnesses. He was twice a candidate for congress.

Good Order for Atlanta.

Atlanta, Dec. 26.—That peace and good order was to be preserved in Atlanta for Christmas was assured by the proclamation which Mayor Woodward issued at noon Monday ordering all liquor houses to remain closed from 4 o'clock in the afternoon until 5 o'clock Wednesday morning. Following the mayor's proclamation Chief of Police Jennings immediately gave instructions to the saloon keepers and liquor dealers to close their places of business at 4 o'clock, and the order was obeyed.

To Serve Ten Years.

Bryan, O., Dec. 26.—William Masters has been taken to the penitentiary to serve 10 years for shooting with intent to kill on May 10 Theo Nemoyer, surveyor for the Chicago and New York Electric Air Line. Nemoyer will never recover from his wounds.

At the Age of 103.

AGGRAVATED CASE OF ECZEMA

Troubled Badly for Several Years With Eczema on Limbs and Wrists — Physicians Prescribe Without Any Benefit — Blotches Now All Gone.

ANOTHER WONDERFUL CURE BY CUTICURA

"For several years I was troubled badly with an eczema on my limbs and wrists. Physicians in several towns had prescribed for me without giving me any results. I had often used Cuticura Ointment and received relief temporarily. In the spring of 1904 I took the Cuticura Resolvent Pills and used the Cuticura Ointment for about five weeks, and at the end of that time there was not a blotch on me anywhere. This spring I took a few vials of the Cuticura Resolvent Pills as a precautionary measure, and will continue to do so every spring simply as a spring tonic, as they are so easy to carry with you, and they certainly fix your blood for the ensuing year. I now use only Cuticura Soap.

"The Cuticura Ointment and Pills certainly cured me of an aggravated case of eczema, and if it will help any other sufferer you are at liberty to use this letter. Respectfully, St. Clair McVicar, San Antonio, Texas, July 6, 1905."

OFFICER KILLED; NEGRO ALSO DEAD

This Was the Finale of a Drama at High Springs Sunday.

OSTEEN AFTER WINNSBURG

He Had Been Reported for a Minor Offense, and When Being Arrested Made a Resistance, With Serious Results to Both Officer and Himself.

There was a serious tragedy at High Springs Sunday night, which resulted in the death of one man and the serious injury of another, followed by a lynching of another on Monday.

It appears that Deputy Sheriff Dennis Osteen, in an attempt to arrest A. Winnsburg, colored, who was charged with some petty offense, was shot, and from the result of his wound he died in a few moments. Winnsburg was shot and injured in a manner that he could not proceed very far—and he is dead.

It is the general statement that Officer Osteen, to whom complaint had been made against Winnsburg, went to arrest the man, when he opened fire upon him. His shots were effective, three taking effect. Officer Osteen returned the fire and the negro retreated, going into the woods. He was soon overtaken, however.

Another Tragedy.

Another tragedy occurred at High Springs Monday, which resulted in the death of Lamar McNealy, an employe of the Atlantic Coast Line. It appears that Mr. McNealy, who was on an engine, in attempting to alight fell under the locomotive, and was crushed. This accident was greatly deplored, as Mr. McNealy had a large number of friends in High Springs and all along the West Coast division of the Atlantic Coast Line, where he was well known.

Mr. McNealy is survived by one brother, who is in the employ of the Atlantic Coast Line, and to whom the sympathy of the community is extended.

The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

CHRISTMAS TREE FIRE.

Mrs. Futch Suffered Burns at Home of Mrs. C. N. Atkinson.

As the result of a Christmas tree fire at the home of Mr. and Mrs. C. N. Atkinson Monday night, Mrs. J. E. Futch had her arms and a portion of her hair burned, from which she will suffer considerable pain for the next few days.

Mrs. Atkinson was giving a Christmas tree complimentary to Miss Eva Futch and her little son, Master Jack Atkinson. In some manner the tree became ignited, when a majority of the presents were destroyed, and Mrs. Futch, who was assisting about the tree, sustained the burns.

Friends of Mrs. Futch trust that she will soon recover from the injuries.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A DANGEROUS PRACTICE.

Consumers of Water Should Not Permit Their Hydrants to Run.

Superintendent B. F. Miller of the waterworks plant requests The Sun to caution consumers against leaving their hydrants open, as this practice is dangerous in case of fire, which is likely to occur at any moment in cold weather.

Superintendent Miller states that, with the dydrants running, in case of a fire, it would be very difficult matter to secure a pressure, with so many faucets in action. Patrons will please remember this, and in case of fire are requested to close their faucets if same are open.

A PROMINENT VISITOR.

Rev. W. Moseley, Missionary Superintendent, Spent Two Days Here.

After a couple of days spent in this city with his friend, A. O. Steenburg, Rev. W. Moseley, superintendent of the Baptist missionary work in the island of Cuba, has gone on his way to New York.

Dr. Moseley is an eloquent speaker and a hard worker for the cause in which he is engaged. He has accomplished a great deal in recent years, since the island of Cuba has been made a republic, and is regarded highly by the Cubans.

Dr. Moseley is on his annual vacation, after a hard year's work in Cuba. He states that Americans may think it peculiar that he takes his vacation at this season of the year, leaving the balmy climate of Cuba to seek the chilly and piercing winds of the North, but it is easily understood when it is known that he is himself an American, accustomed to this climate, and desires to come when he can secure the exhilarating atmosphere here.

Dr. Moseley states that the missionary work is progressing nicely in Cuba, and that Americans are to be congratulated upon the religious and educational advancement of the people. They are becoming more enlightened, religiously, educationally and commercially, every day, and they give the people of the United States the credit for their advancement.

A QUIET WEDDING.

Two Prominent Young People Were Joined in Matrimony.

There was a quiet wedding at the home of Mr. and Mrs. W. P. Garrett, West Court street, about 4 o'clock Tuesday afternoon, when Mr. C. F. Goodman and Miss Omera McCook, the charming daughter of Mrs. W. P. Garrett, were united in the holy bonds of matrimony, Rev. T. J. Nixon officiating.

The contracting parties are among the most popular of the city, but their marriage was a surprise to a great many of their friends. It was known that they were socially on the best of terms, Mr. Goodman being a roomer at the home of Mrs. Garrett, but the announcement of a marriage between them had the effect of a delightful surprise.

While the marriage had not been generally announced, the business associates of Mr. Goodman, employes of the Dutton Phosphate Company, had in some manner been apprised of the fact and date, and surprised the groom with a handsome solid silver service of about fifteen pieces.

Mr. and Mrs. Goodman will continue to reside with the bride's mother. They have the best wishes of all friends.

BLANDING IS CAPTAIN.

Promoted to be Commander of the Guards from First Lieutenant.

It is now Captain J. W. Blanding, and not Lieutenant Blanding, as the men have always known him.

Lieutenant Blanding, by virtue of the fact that Captain C. R. Layton, who has commanded the Gainesville Guards ever since the Guards were organized, had resigned on account of a promotion, has been elected captain of that company to succeed Captain Layton.

Captain Blanding is one of the most efficient and popular military officers in the State Troops, and his election will prove of the greatest satisfaction to everyone.

Captain Layton has been appointed to be inspector-general, with the rank of major, and the commission will be received in a few days. It is a high position, and Major Layton's friends extend congratulations.

HONOR TO CAPT. LYNCH.

Was Presented With Elegant Gold Watch by Students Jasper Normal.

Prof. George M. Lynch, for nine years assistant commandant and professor of mathematics in the East Florida Seminary, but now principal of the Jasper Normal Institute, has been honored, and as a remembrance he will carry for many years a handsome gold watch as a token of the season just closed.

Prof. Lynch was a success at East Florida Seminary, and he will be a success at whatever he undertakes as an educator, for he has the ability.

Captain Lynch, in his usual appropriate manner, thanked the young ladies and young gentlemen of the Normal for their remembrance, when those present were deeply impressed with the ceremonies.

THE OLDEST MAN IN AMERICA

Escaped the Terrors of Many Winters By Using Pe-ru-na.

"I Attribute my Extreme Old Age to the Use of Pe-ru-na."

Mr. Isaac Brock, 117 Years Old Last Birthday.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 117 ears. For many years he resided at Bosque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas.

Some time ago, by request, Uncle Isaac came to Waco and sat for his picture, holding in his hand a stick cut from the grave of General Andrew Jackson. Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 117 years ago.

Born before the United States were formed.
Saw 22 Presidents elected.
Pe-ru-na has protected him from all sudden changes.
Veteran of four wars.
Shod a horse when 99 years old.
Always conquered the grip with Pe-ru-na.
Witness in a land suit at the age of 110 years.
Believes Pe-ru-na the greatest remedy of the age for catarrhal troubles.

IN speaking of his good health and extreme old age, Mr. Brock says:

"After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so.

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 117 years I have withstood the changeable climate of the United States.

"I have always been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature. During my long life I have known a great many remedies for coughs, colds and diarrhoea.

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine.

"When epidemics of la grippe first began to make their appearance in this country I was a sufferer from this disease.

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for la grippe and found it to be just the thing."

In a later letter, Mr. Brock writes:

"I am well and feeling as well as I have for years. The only thing that bothers me is my sight. If I could see better I could walk all over the farm, and it would do me good. I would not be without Peruna."

Yours truly,

Isaac Brock,

When old age comes, it brings with it catarrhal diseases. Systemic catarrh is almost universal in old people. This explains why Peruna has become so indispensable to many old people.

THE NEWS FROM MELROSE.

Christmas Tree Much Enjoyed—New Arrivals—Personal Notes.

Melrose, Dec. 24.—The Christmas tree at the Melrose school house, on the afternoon of Dec. 21, will be long remembered by all who were present as a most enjoyable affair. The large room was filled to overflowing with the children and their parents and friends, all gazing with pleasant anticipations at the pretty decorated stage and the large Xmas tree full of all manner of good things. The ceremonies began with a song by the children, followed by a short address by Rev. Julian. Next came recitations by Wealthy Yearwood, Marion Whitney, Gordon Baker, Mamie Goodson, Celia Baldwin and Marion Yearwood, alternating with a piano solo by Norah Mullin, a cradle song by six little girls, a trio by Ralph, Marie and Leudla Games and a piano solo by Mrs. Games. All were much applauded. Next in order was an address by the supervisor, C. P. Hoffman, who at the close announced the arrival of Santa Claus to distribute the presents, and great was the joy and laughter when not only Santa Claus appeared, but it was seen that he had brought his wife along. Both were very cleverly represented by Frank Yearwood and Major McMillan. The scholars had not forgotten their teachers and presented Miss J. Anderson with a handsome set of comb and brush, a fruit-stand of irridescent glass and other pretty things, whi'e the younger children presented to Miss M. Anderson a very pretty box containing comb, brush and manicure set. The new piano was much admired and its music helped much in the rendering of the program.

The Central Union Times, the organ of union labor in Florida urges Governor Broward to recommend to the next Legislature the enactment of a law creating a State Bureau of Labor. It is not probable that the next Legislature will create any new offices, however.

Hon. J. Ed O'Brien is prominently spoken of as a candidate for Governor in 1908. Captain O'Brien is one of the ablest men in the State and has never been known to be disloyal to a friend. He is a fighter—politically—from start to finish, and if he enters the race there will be "something doing" in the campaign of 1908.

The Atlantic Coast Line has ordered one hundred locomotives, three thousand five hundred freight cars and fifty passenger cars for the earliest possible delivery. It is said that over five million dollars will be exrended on the road for equipment in 1907. It is high time the directors were doing something along this line if they have any compassion upon a long suffering public.

Under recent decisions of the United State district courts no form of labor contract is worth the paper it is written upon. In our opinion the socalled peonage laws go too far in this respect, but there is no getting around the fact that a strict construction of them would give many employers a great deal of trouble, especially in cases where people have been arrested and sentenced to imprisonment on the charge of obtaining goods under false pretenses.

F. J. O'Hara of Palatka, who has been on trial in the United States court at Jacksonville for the past two weeks on the charge of peonage—compelling men to work for him against their will—was acquitted, the jury being out only seventeen minutes. It was one of the hardest fought cases in the history of the court. Judge Locke's charge to the jury was fair and impartial, as is always the case with this eminent jurist, and the verdict was clearly justified by the evidence.

Christmas in Gainesville was one of the most quiet in the city's history. There was very little display of fireworks, and the public generally is under obligation to Mayor Thomas for relief from this nuisance. Everybody, save the young generation, breathed a prayer of thanks when he announced that no fireworks would be permitted at all, but he finally consented to permit the young people to indulge in the amusement within certain limits of the square, and for this indulgence he is excusable.

The Tallahassee True Democrat refers to Alachua county's worthy sheriff in the following manner: "Sheriff Fennell of Alachua county made a number of arrests of 'blind tigers' last week, among them some prominent business men. That's right, get the big and influential 'tigers,' as well as the poorer and more ignorant negroes who violate the prohibition law. Sheriff Fennell is a faithful and vigilant officer and generally 'gets his game,' hence there is very little of that kind of business being done in his county."

OUR GREETINGS.

The Sun goes to its readers this morning holding on to Christmas with one hand and reaching out to the New Year with the other.

This is the season of good cheer; the season of the holly and the mistletoe—the time for bright faces and generous impulses—for gladsome greetings—a time for noble resolves to be born—a time for old animosities to be wiped out—a time when the best side of one's nature should eclipse the sordid side—a time when the thoughts should be turned towards home—a time when the usurping chains of business should be ignored. A time when the child with its golden curls, the man with his silvered locks alike cry "Glory to God in the highest, peace on earth, good will to men." These words must have been chanted by all Christian nations since the infant Jesus slept in the rude manger in Bethlehem. The organs in the grand cathedrals have pealed forth these words and the hearts of the worshippers have been filled with adoration; those treading the flowerless paths of poverty echo the praises. The poor mother in the hovel as she bends over the smouldering embers upon the desolate hearth, and weeps over the empty stockings of her neglected children—even she hears these strains in the distance, and her plaintive voice, so full of want, joins in the chorus, "Glory to God in the highest." Perhaps this mother is thinking of the Christmas days in her girlhood when plenty crowned the board, and these memories may be feeding her hungry heart. Theologians may cavil over the date and origin of this day, but we will hold fast to our Christmas.

As we are about to let go of the old year we realize that to most of us it has been a kind year—to a few the dark side has been turned; to others, the sunny side. We must not forget that upon the homes of some of our readers, since last Christmas tide, a shadow has fallen and the mantle of sorrow has wrapped the inmates in its somber folds. Other homes are like the empty nest that hangs on the withered bough—desolate because the life and song went out with the birds. New homes have been made—new ties formed and others severed, but in our onward march it is not well to stop to measure the load each one carries. No life is either all sunshine or all storm. If the new year brings prosperity, let us rejoice; if adversity, let us be brave. Let us be thankful that "our lines have fallen in pleasant places;" that "it is as well with us as it is." Let us quickly turn over the sad page and look at the bright picture that awaits us; let us quickly penetrate any cloud that may float o'er our pathway and view at length the beautiful silver lining beyond.

CHRISTMAS NOTES.

"Except ye become as little children" is fraught with precious meaning. The kinghood of innocence is above all earthly dignities. The crown it wears brings no anguish, entails no fear. Clear-eyed and clean-hearted, the little children of the world stand on the heights nearest heaven. The condescension that brings older persons on the same plane with them is no condescension at all, but rather a coming back to one's own best estate.

An old proverb says that a "green Christmas makes a fat churchyard," and as most people accept a proverb as if it were indisputably true, it should be said that there is no truth whatever in the particular saying. No warrant is found for it in statistics, and the very fact that people whose health is below the average are advised by physicians to seek a mild climate in winter, should show others that when the Christmas holidays are mild and pleasant they should not be oppessed with any unusual dread of impending death. It is much and more likely that old ladies who dwell in a world of proverbs will come to grief than that undertakers will have any special reason to rejoice.

Far behind we are leaving the bare unbrightened Christmas of Puritanism, and making the holiday our greatest one. Of comparatively recent date is this change, of decidedly recent date, the general custom in America of the lavish use of special decorations in honor of Christmas.

The South has long followed the custom of Merrie England in the matter of bringing in from wood and field the beautiful Christmas greens with which to give home and church festival air; but from the pine lands of Maine to the mistletoe haunts of California, from the creeping groundpines of northern Wisconsin to the high parasite greens down in Hawaii, we all have learned how to keep Christmas. Poor indeed is the house that does not show Christmas wreaths in the window, and hang holly over the picture of some beloved absent one.

I heard the bells on Christmas day
Their old, familiar carols play,
And mild and sweet
The words repeat
Of peace on earth, good will to men!
—Longfellow.

Let the keynote of our Christmas be love—"peace on earth, good will to men." Let those whom God has blessed with plenty see to it that their neighbors and friends have good cheer and abundance to make their hearts glad.

From "Lights and Shadows," we want to bring our readers a full quotation. Our apology is that there may be many shunned because of their apparent barrenness who need but the breath of the spring-time. Will you give it? "Travelling in the winter, we often see some naked, ugly tree, stripped of her folisge, and raising her ugly branches in the cold gray sky. Not a spark of life is seen, and we wonder why it is spared the woodman's axe. In the spring the sap comes, the barren limbs grow green and that which marred the landscape becomes a thing of beauty, and even a refuge from the sultry sun. All that was lacking was the season of usefulness—frondescence. Human beings are like that tree. The race is like a forest. Many that are barren merely need the warm touch of spring—the season of opportunity, the sap of encouragement and kindness to bring out their ornamental and useful points."

No effort or expense should be spared by the city authorities to arrest and punish the person or persons guilty of turning in false alarms of fire. The guilty parties are either ignorant of the enormity of the offense, or they are criminals in every sense of the word. These false alarms not only greatly inconvenience the firemen who give their services free, but it tends to make them indifferent about turning out to a fire, not knowing whether the alarm is false or not. After the two false alarms on Christmas Eve night it is not probable that many members of the department would have responded to another alarm that night.

Six messages from the President in one week was too much for the Republican majority of Congress, so they had to adjourn for two weeks to take time to consider what President Roosevelt recommends. Most of us have not yet had time, and probably will never get the time, to read the message sent in at the opening of Congress, let alone these six additional messages.

According to the report from the government printing office Congressmen and Senators are not regarded as infallible spellers, which one would think would have induced them to adopt the simplified style recommended by the President which they turned down in such a cold-blooded way.

Prof. North and the other tariff commissioners to Germany seem to be having a continual love feast there, but it is not probable they are getting much nearer to a solution of the reciprocity issue with a standpat Congress standing like a lion in the path.

Nursing baby?

It's a heavy strain on mother.

Her system is called upon to supply nourishment for two.

Some form of nourishment that will be easily taken up by mother's system is needed.

Scott's Emulsion contains the greatest possible amount of nourishment in easily digested form.

Mother and baby are wonderfully helped by its use.

"THAT GRAND PRIZE."

Under the above title The Gainesville Sun replies to our criticism in last week's issue of an article by The Sun condemning in very positive terms the action of the judges in dividing the grand prize between Alachua and Polk counties at the recent State Fair. We admire the fair and moderate spirit of The Sun's reply, and wish to assure Bro McCreary that our strictures were not intended for him or for the paper which he so ably conducts, but for the parties who furnished the so-called information as to matters at the Fair. It is true we did express surprise that The Sun should publish such an article, but on cool reflection we admit that we took the matter rather too seriously.

We own up to a very considerable amount of county pride, and whenever the standing of Polk is in any way called into question we are always ready to wield the biggest stick we can handle in her defense. We thought the article in question did injustice to Polk county, and we think so yet, but there was really no necessity for quarreling over it. People will differ on every question to the end of time. The representatives of Alachua and Polk at the Fair viewed the matter of the award from different standpoints. Let us then amicably "agree to disagree," "bury the hatchet" and "smoke the pipe of peace."

In justice to Commissioner Ruhl, we will state that he positively denies that he stated to any one, before the decision of the judges was made known, "that Alachua had undoubtedly won the grand championship prize." He admits that he did say that if Polk did not win it he had rather see it won by Alachua than by any other county. This certainly did not show and spirit of jealousy, but rather of friendly appreciation on the part of Commissioner Ruhl.—Bartow Courier-Informant.

The Sun accepts the above reply in the spirit in which it is made, and thanks General Law, the veteran editor of The Courier-Informant, for the compliment he pays The Sun.

We agree to "bury the hatchet," "smoke the pipe of peace," and "agree to disagree," so far as we are personally concerned, the matter in dispute now being entirely between Mr. Ruhl and our informants, the latter contending as positively that Mr. Ruhl did make the statement as he is in his denial.

Dr. J. J. Harris died at his home in Sanford Monday evening from paralysis. The Doctor was one of the oldest citizens of Sanford; two terms a member of the Legislature and one term Speaker of the House. An editor of distinguished ability, he was proprietor of The Sanford Journal for a number of years. He leaves a widow and five daughters.

The United States Supreme Court has decided that the States have power to control local railroad rates so as to enforce equal rights between its citizens. Equal rights to all and special privileges to none is good old Democratic doctrine.

All the merchants of Gainesville report the best Christmas trade they have ever enjoyed. Except for the extreme cold Christmas Eve was an ideal day, as well as the day following.

France has very kindly determined not to increase the duty on cotton seed or cotton seed oil, probably because she expects to sell the oil back to us as pure olive oil.

MACON POLICEMAN COMMITS SUICIDE

Sends Bullet Through Head at Home of His Brother.

DEBTS CAUSED THE RASH ACT

Wilson Was Bicycle Officer—Met at Gate by Niece, Who Extended Her Hand—As She Did So, Wilson Sent a Bullet Into His Head.

Macon, Ga., Dec. 24—Bicycle Officer J. Tom Wilson, of the Macon police force, committed suicide in front of his brother's residence, in East Macon, Friday, by sending a bullet crashing through his brain with the revolver which he was accustomed to carry while on duty. No one witnessed the deed but Miss Ruth Wilson, a niece, who had just returned from school at Milledgeville for the holidays. She had just come down the steps, and was on the walk when she saw her uncle approaching. Without a word, he drew his revolver, placed it to his head and fired. The young lady turned to run, but on hearing the report, glanced backward to see her uncle fall face forward to the ground.

As soon as the brother, J. R. Wilson, who is a dairyman, could be notified, he came from police court, where he had gone to get a boy released for one of his wagon drivers, and Coroner T. E. Young was notified. The remains were removed to Hart's undertaking establishment, and the inquest held. The verdict was that the officer came to his death by his own hand.

Call Officer Wilson was 35 years of age, and was one of the most popular men on the force. He had a friendly disposition, and a jovial demeanor, which won many friends. He was on duty all Thursday, and was to have reported at 8 o'clock Friday morning. Soon after he failed to answer his name at lieutenant's roll call, the entire force was astonished at the announcment of his shocking deed.

Financial embarrassmets are said to have caused the rash act. Several days ago he was heard to say that he intended to commit suicide, but it was not taken as a serious assertion. He left a note by his side, which was written on his summon sheet, which contained the words:

"Do not touch me; notify the coroner."

Mr. Wilson is survived by a wife and several brothers and sisters. He joined the police department of Macon several years ago, and had been on the fire department for a similar period of time before changing to his last position.

Favorable Decision to Church.

San Juan, P. R., Dec. 24.—The supreme court of Porto Rico has rendered a decision favorable to the Catholic church in the case of the church versus the people as to the ownership of certain property. The court finds that properties valued at half a million dollars belong to the church and accrued rents and incomes since 1898 whe the United States took the island from Spain announcing to $100,000 are declared to be due the plaintiff. Of the five members of the supreme court three favored the decision for the church. The American judges decided in favor of the government. The case will be appealed to the supreme court of the United States.

What's

Worth doing is worth doing well. If you wish to be cured of rheumatism use Ballard's Snow Liniment and you will be "well cured." A positive cure for sprains, neuralgia, bruises, contracted muscles and all the ills that flesh is heir to. A. G. M. Williams, Navasota, Texas, writes: "I have used Snow Liniment for sprained ankle and it gave the best of satisfaction. I always keep it in the house." Sold by W. M. Johnson.

Two Men Burn To Death.

St. Joseph, Mo., Dec. 24.—J. S. Gilliland, and an unknown man, were burned to death in a car in the Rock Island yards here. Gilliland was moving from Northboro, Iowa, to the town of Marlin, I. T. An oil stove in the car was tipped over and set the household goods on fire, roasting the men alive.

Prevents Headache.

Force them? No—aids them. Ramon's treatment of Liver Pills and Tonic Pellets strengthens the liver and digestive organs so that they do their own work and fortifies your constitution against future trouble. Entire treatment 25c. J. W. McCollum & Co. and W. M. Johnson, Gainesville.

A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak, nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" *cures* all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address *free*, on receipt of request therefor by letter or postal card, addressed to Dr. R. V. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of.

"The Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has THE RADGE OF HONESTY on every bottle wrapper, in a full list of its ingredients.

Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate stomach and bowels.

AID PROMISED GOV. TERRELL.

Government Will Lend Expert Agricultural Workers.

Atlanta, Dec. 24.—Governor Terrell has returned from a short visit to Washington and New York, where he went for a conference with Secretary Wilson, of the United States government, in regard to securing aid for the new agricultural schools soon to be established in Georgia.

"Success attended my efforts" said Governor Terrell, "for Secretary Wilson promised to give me all the aid in his power in the proper starting of these schools."

This means that the United States government will send to Georgia at least three of four of the best known agricultural experts in the country to aid in the inauguration of the new school system.

The contracts for the schools will be given out January 21. The new schools will be ready for the reception of pupils on September 1.

The government experts will spend some two or three months in Georgia, giving their advice to the faculties of the different schools, and aiding in many other ways when called upon by those in charge. By this expert advice the new schools will be saved many possible blunders.

A Poor Organ.

Dam(s) the bile. That's what your liver does if it's torpid. Then the bile overflows into the blood—poisons your system, causing sick headache, biliousness, sallow skin, coated tongue, sick stomach, dizziness, fainting spells, etc. Ramon's treatment of Liver Pills and Tonic Pellets strengthens the liver and makes it do its own work. Prevents and cures these troubles. It aids—doesn't force. Entire treatment 25c. J. W. McCollum & Co. and W. M. Johnson, Gainesville.
